

TECHNICAL DATA SHEET

DOLPHIN STARTING FLUID

Revision Date: 1st April 2023

Revision No: 0

Number of Pages: 2

PRODUCT DESCRIPTION

Dolphin Starting Fluid is suitable for the easy and safe starting of combustion engines. The safe cold starting of all engines is made possible by a special combination of ingredients. Dolphin Starting fluid is ideal at low temperatures, in damp weather or after long engine downtimes. The spray protects both engine and the battery. Dolphin Starting fluid is suitable for both diesel and petrol engines. Whether with or without a catalytic converter, whether a motor vehicle or construction machinery, agriculture machinery, chain saws, lawn mowers, boat engines, motorcycles, or scooters – Dolphin Starting fluid can be used everywhere.

TECHNICAL PROPERTIES

Properties	Specifications
Appearance	Clear to Orange
Features	For all combustion engines
Odour	Solvent
Silicone Free	Yes
Physical State	Liquid
Specific Gravity	0.790 – 0.820

(Information on this data sheet is subject to change without prior notice and should not be used for writing specifications)

KEY FEATURES

- Enables quick starting of petrol and diesel engines.
- Prevents battery fatigue.
- Especially effective with cold starts during cold or wet seasons prevents carburetors from freezing.
- Applies easily.
- The special valve of the aerosol allows to use it in all positions and to empty it completely.
